

Macon Electric Cooperative

WATER HEATER REBATE AGREEMENT

- New Structure
- Replacing Existing Gas Water Heater
- Totally Remodeled Structure
- Replacing Existing Electric Water Heater

Macon Electric Cooperative will provide a rebate for electric water heaters under the following terms and conditions:

- Macon Electric Cooperative requires the water heater to have at least R-11 insulation and a minimum of 40 gallons capacity. Elements must be a maximum of 4500 watts interconnected for non-simultaneous operation.
- Macon Electric Cooperative is allowed to install, maintain, and operate a load control device on the water heater(s) being rebated. The device will be furnished by the Cooperative, installed by the Cooperative and will remain the property of the Cooperative. Should the member/owner refuse, or interfere, with the device, this agreement will be void and the rebate will be billed to the member/owner.
- A non-member who is the owner of property served by Macon Electric Cooperative may participate in the program, however is subject to the same requirements as a member/owner.
- Should any home/business be moved (i.e. mobile home) or abandoned within 5 years of the undersigned date, the rebate shall be due from the member/owner. **A mobile home is eligible only if it is on a permanent foundation.**
- Macon Electric Cooperative **requires** that the water heater(s) may **not** be connected to any other fuel source other than electricity (i.e. wood stoves). The water heater must be energized year round, and may be disconnected only for emergencies or repairs. **Should the member/owner violate this rule, the agreement will be void and rebate will be billed to the member/owner.**

I, _____, understand and agree to all of the terms and conditions listed above, and will take responsibility for any recourse that may be given in terms of not following any of the above statements.
